

DROID

1. Tap the **Home** icon.
2. Tap the **Grid** icon so you can view all installed applications.
3. Tap the **Email** icon.
4. Enter your **Email Address and Password** for the account you are setting up and tap **Next**.
5. Select the type of account: **POP3**.
6. Enter the incoming server information:
 - Username and password
 - Incoming mail server is: **mail.yourdomainname.com**
 - Select **Delete** email from server.
 - Tap **Done** and then **Next**.
7. Enter the outgoing server settings:
 - SMTP server is: **smtp.yourdomain.com**
 - Check **Require Sign-in** box.
 - Username and password.
 - Tap **Done** and then **Next**.
8. You can now select Account options: email checking frequency, send email from this account by default, and notify me when email arrives. Make your selections and then tap **Next**.
9. Your email is now set up and must be named.
